*Heiloo, Holland, January 1956
our 86th year*

Again we have the great pleasure of presenting you our New Spring Catalog that lists and describes newest bulb creations as well as the many standard varieties that have endeared themselves to garden lovers in nearly every part of the world.

We are glad to report that we have harvested a magnificent crop of Dutch Gladioli. They are really fine, large healthy corms holding promise of glorious blooms next summer.

deJager's wide experience in bulb growing shows its advantage in every bulb produced. We have but one standard... deJager Superb Quality. Our bulbs are guaranteed to have highest productivity and beautiful blooms. As you will see by the prices listed in this catalog, deJager bulbs cost no more than ordinary bulbs.

Order blanks and envelopes are contained with this catalog for listing your bulb selections. We look forward to receiving your order which will be sent postpaid by us in the U.S. and Canada; for details please see Business Terms and Directions. Delivery will be made at the proper planting time that most ideally suits the climatic conditions of your location.

P. de Jager & Sons

Gladioli are now greatly favoured flowers and need no lengthy description. The improved strain of these magnificent flowers produces enormous spikes of very large strikingly coloured blooms of enchanting beauty. They have a very commanding appearance in borders, in groups among shrubs where they remain in bloom for a considerable time, while they are also greatly praised as cut-flowers.

The prices quoted are for Topsize corms.

New Gladiolus Introductions 1956

We introduce each year a number of Gladioli which in our opinion are among the best varieties exhibited during the previous season and which have not previously been introduced. These brand new introductions may be regarded as a considerable improvement on the present collection of Gladioli, while this selection is being made with utmost care and after due consideration for substance, poise, colour-value and size of the flowers.

Gloriana (1), a very warm coloured salmon-pink novelty of an enormous size, well proportioned and of a very strong constitution, the very large and open florets are evenly spaced on the stem and facing forwards. It is best described as an improved Dr. Fleming. **\$ 3.00 each; \$ 7.50 per 3**

Jenny Russell (2), a delightful shade of bright salmon-pink, somewhat lighter in colour on edge of petals, making this outstanding variety specially attractive, its nicely formed florets and perfect carriage adding to its beauty and distinction. **\$ 1.00 each; \$ 2.50 per 3**

Norvica (1), because of its fine colour and perfect formation of truss one of the most desirable salmon-pink introductions, well formed open florets from which 8 to 10 out at a time are carried on a strong stem. An excellent show-flower. **\$ 2.50 each; \$ 6.50 per 3**

Pastel Beauty (1), a most fascinating new introduction of a lovely pale mauve-blue with a conspicuous large purple-red blotch on lower petals, produces a spike of immense size with 10 to 12 florets out at a time. Outstanding in colour and form. A.M. Haarlem 1955. **\$ 1.50 each; \$ 3.75 per 3**

Victory Day (1), very tall and large flowering exhibition variety of a deep salmon-pink with a small blotch of white in throat; the flowers are of a perfect form and substance and well placed on a strong stem, exceptionally long spike, measuring 24 inch. from first bloom to top. A. M. Haarlem 1955. **\$ 2.50 each; \$ 6.50 per 3**

DAHLIAS

(Pot-grown roots)

Dahlias are the royal representatives of the summer season and they are known all over the world as decorative garden plants. They have shown a remarkable increase in public favour in recent years because so many new and better varieties have been raised. Rich tints in every design of colour and strong stems make them invaluable for cutting as well as for garden purposes.

We are able to offer the following list of very choice and rare Dahlias, which should be of special interest to the real connoisseur and fanciers. The roots offered are all top sized and can be planted from the 15th of April until the end of May. They are very easy to grow and do not need any special treatment although they want a sunny position in the garden and some bone-meal is recommended.

D. = Decorative; S.C. = Semi Cactus; C. = Cactus.

Royal Dutch Amaryllis

(Hippeastrum)

The Amaryllis produce huge Lily-like flowers and with their unique beauty and grace they give immense pleasure and satisfaction. The three or four funnel-shaped florets are placed on the top of a tall solid stalk and grow about eight to ten inches wide at mouth. This genus has several qualities combined and its shades are most exquisite and lovely.

The Amaryllis can be had quite easily in bloom when placed in a warm spot in the living room with normal indoor temperature. Remember, the base of the bulb should be kept warm to stimulate the development of the roots.

Choice seedlings mixture, certain to give entire satisfaction on account of its large bloom of breath taking beauty, the shades being mainly red. They deserve a much larger popularity and to encourage their cultivation, they are offered at a special price.

Large bulbs: \$ 3.00 each; \$ 8.00 per 3

Anemones

They excel in richness, being of all shades and colours and can be had in bloom from early Spring till July, if planted in succession from October to April. They flourish in any garden soil and should be planted four to six inches apart and one or two inches deep. The roots should always be kept in a perfectly dry place before planting as they are extremely sensitive to dampness.

St. Brigid, (semi-double), we offer a splendid mixture comprising a variety of rich colours and very pleasing shades, this lovely Anemone cannot be too highly recommended and should be planted in generous quantities.

60 cts. per doz.; \$ 4.00 per 100; \$ 37.50 per 1000

St. Brigid Lord Lieutenant, a fine semi-double mauve flower.

St. Brigid The Admiral, deep pink, semi-double.

60 cts. per doz.; \$ 4.25 per 100

De Caen Sylphide, another beautiful variety of a delicate mauve colour, it is of distinct beauty and outstanding as a cut-flower and for decorative floral work.

60 cts. per doz.; \$ 4.25 per 100

De Caen The Bride, single white flowers held on tall stems fine for cutting.

65 cts. per doz.; \$ 4.50 per 100

Anomatheca

Anomatheca cruenta, a charming Cape bulb, producing in July and August dazzling scarlet flowers with crimson blotches; very pretty in pots (6 to 12 bulbs), or planted outdoors in sunny situations in the rock-garden, ht. 3/4 ft. 50 cts. per doz.; \$ 3.50 per 100

Superb Begonias (Tuberous Rooted)

This Genus deserves attention on account of its great value for planting in any position of the garden. From early July and onwards, these so often lost spots will be brightened by the Tuberous Begonias with their huge flowers of magnificent bright and pastel colours.

Culture: The best method is to start them in a cold frame. Plant in rich soil. Good drainage is essential and water cautiously until plants have shown considerable growth, then increase supply. When a little hardened off and when nightfrosts are no longer expected they should be planted out in the garden. Begonias can be planted either single or in beds one foot apart.

LARGE-FLOWERING DOUBLE CAMELLIA-FLOWERED BEGONIAS

Separate colours—**crimson, orange, pink, salmon, scarlet,**

white, or yellow each separate colour \$ 2.25 per doz.; \$ 16.00 per 100

BEGONIA MULTIFLORA

The varieties offered below are the best of this group, being equal in height and producing a wealth of blossom throughout the season:

Flamboyant, brilliant scarlet, very long lasting \$ 2.75 per doz.

Jewel, very beautiful light orange. \$ 3.00 per doz.

Mrs. Helen Harms, soft yellow, most profuse bloomer \$ 2.75 per doz.

Mrs. Richard Galle, orange, very compact growth. \$ 2.75 per doz.

Outdoor Freesias

Freesias are well known for their fascinating pastel colours, fragrance and unsurpassed beauty for indoor decoration. While it was formerly possible to grow them in a greenhouse only, through certain preparations they can now be planted in the garden with great success.

Plant towards the end of April about 2 inches deep and 2 inches apart in a well drained, good loamy soil and give them a sunny position. The outdoor Freesias flower from the end of July to late autumn and they have long lasting qualities.

Mixed Colours \$ **1.30** per doz.; \$ **9.00** per 100

Gloxinias

Gloxinias succeed under a very easy culture. The tubers in spring are planted in pots, being placed on bottom heat during the first development of the flowers and foliage. In the flowering period they are transferred into the greenhouse, conservatory or drawing room and afterwards should be removed and kept dry and frost-free during the winter.

- Blanche De Meru**, pinkish-rose, white throat.

Hyacinthus Candicans (Galtonia)

This plant deserves to be extensively cultivated. It is a very handsome decorative plant for grouping in the border or in lawns, and a good potplant for the conservatory. Producing a spike of 30 to 40 white bell-shaped flowers, it is also very effective when associated with scarlet Gladioli. Plant in Spring in ordinary rich, well-drained soil 6 inches deep and 8 inches apart. Height 2 ½ feet.

85 cts. per doz.; \$ **6.00** per 100

Ismene

(Peruvian Daffodil)

Most rare and lovely plant from the hill of Amancaes near Lima, Peru, with brilliant fragrant flowers rather like large fantastic Daffodils. Thrives in a cool house or may be grown in sandy loam in warm sheltered spots in the garden.

calathina Advance, an improved I. calathina (Pancratium), a charming plant for the greenhouse or in the open, planted close to a south wall; it produces large elegantly fringed pure white trumpet shaped flowers, ht. 2 ft.

75 cts. each; \$ **1.95** per 3

Lycoris

(Hardy Amaryllis)

Very similar to Amaryllis and Nerine, they are often regarded as greenhouse bulbs, but are certainly as hardy as Tigridias and do very well in the south in sandy soil and warm spots. Cover with ashes or litter during winter as protection; the bulbs establish themselves for blooming for years.

squamigera, sweet heads of lovely pink flowers on 2 ft. stems, the most charming and rarest of the species. Flowers in August.

40 cts. each; 3 for \$ **1.00**; 12 for \$ **3.50**

Lilies

All High Quality Dutch Grown Bulbs

Of all the classes of plants capable of being cultivated outdoors, the Lily stands pre-eminent for beauty, grace and colour for many years, when left undisturbed.

Culture: Lilies must not be allowed to dry out, but should be planted immediately on arrival at a depth of three times the height of the bulb in a well-drained light loamy soil. No Lilies will thrive in full shade. The first season after planting, Lilies do not flower profusely, but once established, they increase in richness and display. Cutting down the dead stems in Autumn is essential for good results the following year. Add a fresh top-dressing of old well-decayed manure and rotted leaf-mould in early Spring.

auratum (The White, golden rayed Lily of Japan), the pure white flowers are beautifully covered with crimson and brown spots and through the centre of each petal runs a clear golden band. It is a wonderfully fine and stately Lily and should have a place in every garden and greenhouse, ht. 3 to 4 ft. **75 cts. each; \$ 7.50 per doz.**

Creelman Hybrids, a much improved strain of L. Regale, producing very large pure white trumpet-shaped flowers with a faint tinge of purple on outside of petals; stem rooting, flowering July-August. **45 cts. each; \$ 4.50 per doz.**

De Jager Seedling Hybrids, bred from Parryi, Burbanki, Humboldtii and Pardalinum giganteum. These seedlings are very beautiful and bear several recurving flowers of great beauty on a stem and have magnificent colours ranging from bright yellow to brilliant red. Height 3 to 5 feet. Flowering in July. Limited stock. **80 cts. each; \$ 8.00 per doz.**

Montbretias

Large flowering varieties only

These magnificent **New Montbretias** are a great improvement on the older varieties, being taller and more robust, while the flowers are of much greater size and beauty, some of them measuring 3 inches across. These lovely flowers with their elegant and branched spikes are not only good cut-flowers, but they are also charming as garden varieties, their vivid, warm orange colourings give the most effective result when planted in groups from 6 to 12 in the border.

Culture: It is absolutely necessary to give them a sunny place and a well drained position. The best time for planting is during March and April at a depth of at least 3 inches and 2 inches apart. They like a deep well-drained loamy soil enriched with leaf mould. Can be left undisturbed for years.
